

E30 Racing DVD - Calder 2005

Three E30 drivers have courageously consented to going public with their driving secrets, habits and techniques. There is track-side footage from all races and some revealing interviews from our roving-reporter. And, the much kept web-site secret about the "Ice Car" will be divulged - Dramatic footage of the ice melting.

This video should be a benefit for those wishing to introduce E30 Racing to sponsors, new members and interested parties [e.g. other clubs]. As well as promoting Round and Series sponsors, there is an opportunity for drivers to gain exposure for their personal sponsors.

Copies can be purchased via mail-order or from Northern BM. Also, copies are available at Revolution Race Gear. For mail orders, please use the following form.
